PROFESSIONAL SUMMARY

Results-driven Senior Flutter Developer with 4+ years of expertise in developing high-performance cross-platform mobile applications and Flutter web solutions. Specialized in Dart programming, Clean Architecture, Bloc/Cubit state management, and responsive UI/UX design. Successfully delivered 15+ production applications serving 75,000+ active users with 99.9% uptime. Proven leader managing cross-functional teams of 5+ developers while implementing CI/CD pipelines that reduced deployment time by 87.5%. Expertise in Agri-Tech, E-Commerce, Healthcare, and B2B transactional systems with demonstrated ability to improve app performance by 45% and reduce development time by 30% through code optimization and automated testing.

TECHNICAL SKILLS

- **Mobile Development:** Flutter • Flutter Web • Flutter Desktop • Dart • Android (Kotlin) • iOS (Swift) • React Native • Cross-Platform Development
- **State Management & Architecture:** Bloc • Cubit • Provider • GetX • Redux • Riverpod • Clean Architecture • MVVM • MVC
- **Backend & APIs:** RESTful APIs • GraphQL • Firebase (Authentication, Firestore, Cloud Functions, Cloud Messaging) • Node.js • AWS Amplify • API Integration
- **Database Management:** SQLite • Hive • MySQL • Firebase Firestore • PostgreSQL • NoSQL • Local Storage • Cloud Databases
- **Development Tools & IDEs:** Android Studio • Xcode • Visual Studio Code • IntelliJ IDEA • Git • GitHub • GitHub Actions • Bitbucket • GitLab CI/CD
- **Testing & Quality Assurance:** Unit Testing • Widget Testing • Integration Testing • Flutter Driver • Test-Driven Development (TDD) • Mockito • Flutter Test
- **UI/UX & Design:** Material Design • Cupertino Design • Custom Animations • Responsive Design • Adaptive Layouts • Syncfusion Flutter Widgets
- **Cloud & DevOps:** Google Cloud Platform (GCP) • Amazon Web Services (AWS) • Microsoft Azure • Firebase • CI/CD Pipelines • DevOps
- **Additional Technologies:** JavaScript • SQL • Payment Gateway Integration • Google Maps API • AdMob • Deep Linking • Push Notifications • In-App Purchases
- **Development Methodologies:** Agile • Scrum • Kanban • Sprint Planning • Code Review • Technical Documentation • Mentoring • Team Leadership

PROFESSIONAL EXPERIENCE

Senior Flutter Developer

FarmSetu Pvt. Limited | Surat, Gujarat | June 2024 – Present

- Architected and developed mobile applications and Flutter web applications for farmer-facing solutions and B2B transactional systems, serving 10,000+ users across the Agri-Food Supply Chain ecosystem
- Implemented Flutter Clean Architecture with Bloc state management, reducing code complexity by 35% and improving application performance by 45%
- Led end-to-end product development for 5 major releases, collaborating with 8+ cross-functional team members including designers, backend engineers, and customer success teams
- Mentored 3 junior Flutter developers through code reviews, pair programming, and technical documentation, increasing team productivity by 25%
- Engineered responsive Flutter web applications with mobile-first design principles, achieving 99.9% cross-platform compatibility across devices
- Applied product thinking methodologies to agricultural ecosystem challenges, driving 40% increase in farmer engagement and user retention rates
- Optimized CI/CD pipelines for mobile app deployment, reducing release time from 4 hours to 30 minutes (87.5% improvement)
- Developed advanced Flutter widgets including SliverPersistentHeader, CustomScrollView, and complex animations for enhanced UX

Senior Flutter Developer

Elision Infotech | Surat, Gujarat | January 2023 – June 2024

- Developed and maintained 8+ enterprise-grade Flutter applications with complex UI components serving 50,000+ active users
- Led Agile development team of 3 Flutter developers, conducting daily code reviews and enforcing Flutter best practices and coding standards
- Implemented Bloc and Provider state management patterns, improving application performance and scalability by 40%
- Integrated 15+ RESTful APIs and third-party services including payment gateways (Razorpay, Stripe), Firebase Cloud Messaging, and Google Analytics
- Collaborated with UX/UI design teams to create pixel-perfect mobile interfaces following Material Design and Cupertino guidelines
- Reduced application crash rates by 60% through implementation of comprehensive unit testing, widget testing, and error handling
- Optimized Flutter build processes and app size, decreasing compilation time by 50% and reducing APK/IPA size by 30%

Flutter Developer

Tagline Infotech | Surat, Gujarat | August 2021 – December 2022

- Designed and implemented responsive and adaptive UI components for 10+ mobile applications across Android and iOS platforms
- Utilized Redux state management to streamline data flow, improving code maintainability by 30% and reducing state-related bugs

- Developed custom implicit and explicit animations using Flutter's animation framework, enhancing user engagement by 25%
- Participated in peer code reviews and contributed to establishing Flutter development standards and best practices
- Implemented offline data persistence using SQLite and Hive databases, improving app performance for users with poor connectivity
- Integrated Firebase services including Authentication, Cloud Firestore, Storage, and Cloud Functions for scalable backend solutions

Flutter Developer Intern

Across the Glob | Bangalore, Karnataka | January 2021 – August 2021

- Assisted in Flutter application development while learning industry best practices and mobile app development standards
- Gained hands-on experience with Dart programming, Flutter framework, and complete mobile app development lifecycle
- Participated in daily standups, sprint planning, and retrospective meetings following Scrum methodology
